

Managed Detection and Response

With constant vigilance against cyber threats comes the calm confidence to grow your business and thrive.

Socura Managed Detection and Response identifies and stops attacks 24/7, providing peace of mind that your most important assets are secure.

Quickly scale detection capabilities

Get the expertise, tools, and intelligence you need to proactively identify threats.

Accelerate your response to attacks

Stop attacks early and minimise the risk of disruption to your business.

Keep pace with emerging threats

Ensure your defences are prepared to face down the latest adversaries.

The 24/7 cover offers serious peace of mind.

Cyber Security Manager

The outcomes you need to enhance your resilience

- **Extensive threat visibility**
To identify threats, we centralise and investigate security events across your networks, endpoints and clouds.
- **Genuine incident notification**
We minimise false positives using high-fidelity detections and context for fast, accurate verification.
- **Automated response actions**
To stop threats early, we use automated response playbooks to contain and disrupt them.
- **Actionable remediation advice**
To help prevent future attacks, we share clear and actionable remediation and mitigation advice.

Bringing calm to your security

Socura MDR proactively manages your cyber security defences, creating the peace of mind that allows you to thrive. With our team by your side, you can look forward with confidence, not over your shoulder in fear.

Experienced SOC experts

Our specialist team of UK-based security analysts brings the expertise and experience needed to handle any situation.

Best-in-class technology

Get the controls you need to detect and respond to threats, and make sure you're getting the best protection from your existing investments.

Latest threat intelligence

By aggregating and applying cyber threat intelligence from a wide range of sources, we keep your defences on constant alert.

More tuning done in one meeting than 5 years with the previous provider.

Why we're a trusted partner of security teams

Fully MDR focused

We specialise exclusively in MDR, dedicating ourselves to detecting and responding to threats as swiftly and effectively as possible.

A personal approach

We know your security posture is unique. By working as an extension of your team, we get to know your business and the specific risks it faces.

No hidden extras

We believe in a transparent approach, which means no hidden costs or surprise extras. Updates and service improvements are included.
